According to our visual inspection, above-mentioned container could be used for overseas ocean freight. Furthermore, it can be handled by portainer, transainer or any other way by top corner fittings simultaneously. Cables/wires and forklift are not permitted.

As a result, equipment were found acceptable within the limits according to informed/stated at the standards of C.S.C. (Convention For Safe Containers) visual inspection rules.

This statement is valid up to six months:

Place of Survey	: STANBUL
Date of Survey	: 15/03/2018
Next Date of Survey	: 15/09/2018

*This inspection has been carried out in the best of ability and knowledge without prejudice for the use of the product examined. This report is evidence of our visual survey and reflects our findings at the time and place of our inspection only and results are valid for this date and date of the survey. This inspection company (Uskont) shall not be held liable for any damages, losses or claims resulting from the failure of this above mentioned container and its survey.
